

We're excited to introduce **TTS | School Website Solution**, an easy to use, customisable website designed specifically to meet the needs of NZ schools.

Reflecting on years of insight, TTS has created a mobile-friendly school website solution which is easy to access, customise and maintain – giving you full control of your online presence and how you choose to communicate to your current and future communities.

How it works:

Designed to solve the problem of school websites

The web is a living thing – always changing and evolving. We've created a website solution built specifically to solve the frequent problems which arise with school websites.

Easy to Use

Intuitive software, easy for your team to update and manage directly

Community Focused

Mobile-friendly design for on-the-go parents

Your School, Your Story

Easily customised Digital Brochure for reaching prospective families

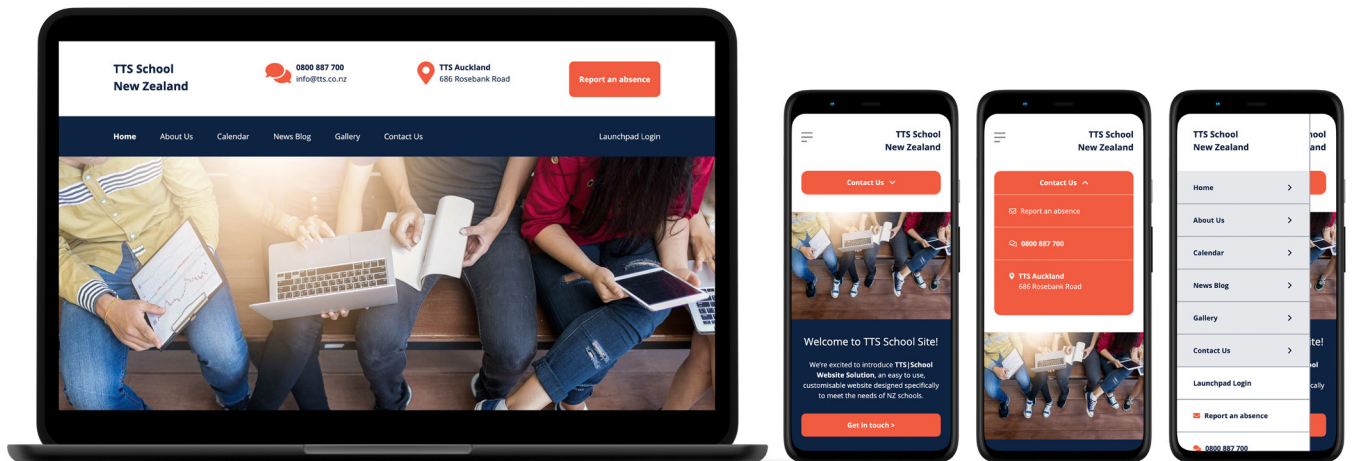

Seamless Support

Ongoing phone and email support through TTS Remote Support

Peace of Mind

We'll look after you as your website needs change and grow

TTS | School Website Solution

What it is:

Like all things we do, our **TTS School Website Solution** is a combination of technology and PL support. With it comes:

| Pre-Built Website Pages

Including Home, Our School, Calendar, School News/Blog, and more

| Customisation and Set-up

One-time initial build, including customisation and content loading

| Seamless Support

Ongoing phone and email support through TTS Remote Support

| Tailored Professional Learning Sessions

Two PLD trainings to teach your team how to make the most of your site

| Interactive User Manual

| Full Maintenance & Support Packages

Why use it:

When used effectively, your website can be a support source for:

| Communication

A digital space for community and whānau to connect

| Information

An online brochure for sharing your story with outside communities

| Administration

A reference point for bell schedules, term dates, and reporting absences
